## Referral Partners

1% of the loan amount

For those who don't have time to study, learn, and don't want to make the initial \$99.99 USD investment, **you can join as a referral partner, which is only referring potential clients for business funding or commercial real estate funding.**

We also understand that there are people who have an existing career as an accountant, lawyer, financial agent, insurance broker, mortgage broker, realtor, B2B salesperson, or another profession and don't have the time to handle the work of a business loan specialist. There are even people who have full-time jobs and are looking for ways to supplement their income. **This plan is ideal for those individuals.**

Under this plan, you simply refer potential clients seeking business credit or a commercial mortgage to purchase a business premises, building, or warehouse.
